---

Dear Dolphin Cay Residents:

We wanted to remind everyone of the AED defibrillators located throughout the community. There is one in each condominium building, as well as the Casino, fitness center, and tennis court restroom. Location in the condominium buildings is on the first floor, next to the elevators.

The defibrillators have step-by-step instructions, but you can also view a training video provided by the manufacturer at <https://www.zoll.com/medical-products/automated-external-defibrillators/aed-plus/video>.

The Red Cross also offers online AED training courses. If you are interested, please use the following link: <https://www.redcross.org/take-a-class/online-safety-classes?latitude=27.7676008&longitude=-82.64029149999999&searchtype=class&zip=st.%20petersburg%2C%20fl>.

These defibrillators are intended for use by lay persons and you do not need to be certified or a trained health care professional. We encourage you to review the video provided by the manufacturer, Zoll Medical Corporation, by using the link above.

Sincerely,

Dolphin Cay Management
