
MAY 10, 2022

Dear Dolphin Cay Residents:

At various times over the next 4-5 months, there will be ongoing projects in several of the condominium buildings requiring vehicles to be moved out of the parking garages.

Since additional parking will be provided in the Butterfly Garden Lot and the Tennis Court Lot, please DO NOT park in an EV charging space unless you have an electric vehicle. We need to keep at least two EV charging stations open and available in each of these lots.

Tennis players are being asked to have their guests park in the front lot of their own building.

Owners may also request a guest pass for the non-conforming lot where they can pick up their guests. Please contact the office for additional information regarding passes.

We appreciate everyone's cooperation in this matter and request you contact the Dolphin office if you have any questions.

Sincerely,

Dolphin Cay Management
